## *WHY CHOOSE GRAND CANYON PREP?*

- *Grand Canyon Prep is a School that provides an individualized educational program to all its students with a small 13 to 1 Student to Teacher Ratio, an Advisory Program, Weekly Planners, and a Dedicated Staff that will leave no stone unturned in working towards a child's academic success.*
- *Grand Canyon Prep provides a QUALITY Middle and High School Program that exceeds State Expectations. A Private Education for free, Grand Canyon Prep's program mandates students learn more in the Humanities and Sciences. We require that all students pass their courses with a C or higher and maintain a B average. Furthermore, we expect our students to explore their career interests and serve the community as Active Citizens. We offer a variety of programs for students to explore subjects they like such as Art, Animation, Robotics, Astronomy, Forensic Science, Drama, Music, Science Fiction Literature, Zoology, and Environmental Science. Older students have opportunities to earn college credit for free as our students have earned over 200 hours of college credit the last six years that have saved their families close to \$40,000 in college tuition.*
- *Grand Canyon Prep fosters a strong and small school community where families receive daily communication via email from the school in reference to homework and school events. We contact families every three weeks if their child's grade is below a C and if they have an A. Furthermore, we promote a Uniform Dress Code Policy and a Zero Tolerance Behavior Code. We also offer academic and citizenship incentives such as Free Laptops and Academic Scholarships. Finally, we will be providing, for an economical fee, an Fifth Hour Program from 2:35 p.m. to 6:00 p.m. for after school care, courses, and clubs.*
